

The Haters Dictionary

Joseph D. Smith

Introduction

Are you tired of prejudiced idiots who try to get you down? There are too many racists, people who think that one or more particular racial group is more inferior, and too many homophobes who are ignorant of the fact that homosexuality is natural and is actually found in nature! Where I grew up, there were too many rednecks, uneducated white trash who have the most utmost disregard for anyone but their own kind!

Use this guide, *The Haters Dictionary* when you are on the go and you happen to find an idiot-hater, to educate them on what you are calling them, because more often-than-not these haters will try to ask you to define what you are accusing them of being. If you can't explain it to them, then use this dictionary to define it for them! Often when you are left stuck without an explanation, the haters will think that they won the debate or argument, and it will make you look like a fool. Well, no more looking like a fool!

(All definitions will come from the online Merriam-Webster dictionary)

Ageism:

1. prejudice or discrimination against a particular age-group and especially the elderly

Note: This is a no-brainer, but most people don't understand that young people are some of the most discriminated against, because they are 'too young to have nerve problems', or they are 'too young to have arthritis'. Well, let me put it this way; young people have minds of their own, and would you compare an elderly patient with Alzheimers to a young person? I didn't think so! Young people tend to be unable to get the proper pain or 'nerve' medication just because they are young. I am only talking about qualified patients, that are mostly adults who are still young.

Elderly people suffer too, especially when being put into a nursing home, because nobody knows what they are doing to your loved-one(s)! These loving and wise people feel lonely, sometimes neglected, and they feel they are being taken advantage of. Most nursing homes actually make their residents feel welcome, safe and secure!

Antisemitism:

1. hatred of Jewish people
2. hostility toward or discrimination against Jews as a religious, ethnic, or racial group

Note: Why in the hell would anyone hate on Jews?! I am only Jewish by blood, but I am not a follower of the Jewish religion or their culture. But a lot of Christians forget that in the Holy Bible it tells that Jews are God's chosen people. We are supposed to lead the war against temptation and the final war against Satan and his army. But like I said I don't believe in that bullshit! I am only a Jew by blood, you can't tell it by looking at me, so why would it change things if you knew that I was a racial Jew?

Bigot:

1. a person who strongly and unfairly dislikes other people, ideas, etc.
2. a person who hates or refuses to accept the members of a particular group (such as a racial or religious group)

Note: Oh brother. Hate is an emotion stemmed from fear, which is just another form of anger. When you hate or dislike an entire group, you are pretty much making accusations that make you look stupid!

Chauvinism:

1. an attitude that the members of your own sex are always better than those of the opposite sex
2. the belief that your country, race, etc., is better than any other
3. an attitude of superiority toward members of the opposite sex; *also* : behavior expressive of such an attitude

Note: Come on now! If you are a male who thinks he is better and more important than women should have their testicles cut-off! The women in my life are very important to me. They have the hardest time in this male-dominated world, especially whenever some of them go into labor! I'd like to see a male do that and still live on to take care of her baby and to take care of her crybaby, the baby's father or their male legal guardian!

Homophobia:

1. irrational fear of, aversion to, or discrimination against [homosexuality](#) or [homosexuals](#)

Note: When I notice that someone is bashing on the LGBT community, since I am bisexual, I just tell them that they are scared of me! Anger comes only from fear, and when someone displays anger, they feel threatened by me just because of my sexual preferences. They make a comeback like, "I'm not afraid, I just don't like homos!" Well, if you display any kind of anger towards me, then you are showing your true angry colors!

Prejudice:

1. an unfair feeling of dislike for a person or group because of race, sex, religion, etc.
2. a feeling of like or dislike for someone or something especially when it is not reasonable or logical

Note: Have you ever watched National Geographic's documentary on [The Human Family Tree](#)? 'Nuff said.

Racism:

1. poor treatment of or violence against people because of their race
2. the belief that some races of people are better than others

Note: Racism is a double-standard, because most black people think that they can't be racist, just because of what my white ancestors did to them. Black people can be racist, that includes being racist towards white people! If a black person hates a Latino, then are they still incapable of being racist? I hate any kind of racism, especially against my friends and family who are black!

Redneck:

1. a white person who lives in a small town or in the country especially in the southern U.S., who typically has a working-class job, and who is seen by others as being uneducated and having opinions and attitudes that are offensive

Special Note: Rednecks are so DURR-HURR, and so DOIH! They are the most nasty, racist, and homophobic people in the world! They spit their dip, sharing needles with meth users, and they are too LOUD, because they blast their music and they squeal their tires in the middle of the night! That's why this is a special note, because rednecks are so special. DURR-HURR!

Sexism:

1. unfair treatment of people because of their sex; *especially* : unfair treatment of women

Note: Women are pretty much second-class citizens in this damn male-dominated world! It is infuriating, especially seeing as how certain women go through the worst pain, pretty much doing all the work by delivering their baby! Women are a lot more sensitive and understanding, and they are very capable of leading this world! Women are also discriminated against when they try to go barechested in certain places in the United

States and all over the world; women have the same 14th Amendment rights as men, because this amendment says that whatever a male can do, a female could do the same, or whatever a white person can do, a black person can do!

Xenophobia:

1. fear and hatred of strangers or foreigners or of anything that is strange or foreign

Note: You should never fear things that you don't understand, you should never fear what you deem as 'strange', because you never know what their background could be like! A woman who carries a baby-doll around and treats it like a real baby, don't you think that she may have lost her child in a miscarriage, or maybe her baby was stillborn? She may very well be traumatized and delusional, and she can't help it unless she gets proper treatment!

But then, there are things that are lifestyle choices, such as being a Goth, who most people associate with 'cutting' themselves, or that we are Satanists. Most people believe that we are trying to cast curses on them, or that we like to eat babies. How typical! Don't judge 'lest you be judged yourself.
